

Article number: 1036

- Weight*: approx. 20.5 kg
- Dimensions*: 1275 x 530 x 1045 mm (b x h x w)
- Wheel diameter*: 260 mm

Delphin Alto I is the initial model from our Delphin series. Its sturdy square tube construction makes it the ideal picking cart for harvesting strawberries or other bush berries. Delphin Alto I is equipped with easily accessible handles.

It features two tiers holding 3 to 4 boxes which can be stacked without slipping. The top edge of the upper attachable basket is at 915 mm. Thanks to its large, puncture-proof wheels with roller bearings, it provides excellent weight balance. The Delphin Alto I picking cart was designed for harvesting crops in greenhouses, tunnels, or rack systems. The durable weather-protected surface contributes to the longevity of the material. Galvanised version.

Made in Germany

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Suitable for the following crops::

Strawberries

Highlights

- ✓ Tyres: PU wheels, puncture-proof
- ✓ Box size: 600 x 400 mm or 400 x 300 mm
- ✓ Height specially adapted for strawberry rack
- ✓ Provides staff economy
- ✓ Gauge 385 mm
- ✓ Sturdy square tube construction
- ✓ Storage tier for stackable boxes
- ✓ Galvanised
