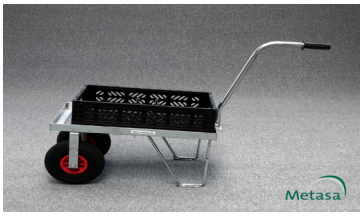
1020.08 MULI I SOLO EXTRA ASPARAGUS TROLLEY (SPECIAL SIZE)

METASA
CURVE. PRECISION. MASTERY.



The Muli I Solo extra, from the tried-and-tested Muli series, can be used to transport various crops after harvest. Thanks to its sturdy angular design, it is particularly recommended for transporting asparagus during the harvest. Two boxes measuring 440 × 300 mm can be stacked on it without slipping. Other box dimensions can also be used, but they do not fit securely within the frame. The Muli I Solo extra features an easily accessible, bolted handle. The profiled wheels perform well even at the edges of an asparagus field. The large, puncture-proof wheels with roller bearings ensure good weight distribution.
