

Article number: 1036.04

- Weight*: approx. 21.5 kg
- Dimensions*: 1275 x 530 x 1045 mm (b x h x w)
- Wheel diameter*: 260 mm

Delphin Alto II is the first model from our Delphin series with a swing axle. Its sturdy square tube construction makes it the ideal picking cart for harvesting strawberries or other bush berries. Delphin Alto II is equipped with easily accessible handles. It features two tiers holding 3 to 4 boxes which can be stacked without slipping. The top edge of the upper attachable basket is at 915 mm. The rack cart is equipped with two castor wheels. Thanks to its large, puncture-proof slide-bearing wheels, it provides excellent weight balance. The Delphin Alto II picking cart is suitable for harvesting crops in greenhouses, tunnels, or rack systems.

Made in Germany

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Suitable for the following crops::

Strawberries

Highlights
