1455 PROFISTAR SERIE MEGA

METASA
CURVE. PRECISION. MASTERY.

The ProfiStar Mega from Metasa enables fast and intensive soil cultivation over large areas. Deep tines, hollow discs and trailing modules form a coordinated unit; all elements are height-adjustable. The hydraulic track width adjustment can be easily adapted to different row widths, whilst the integrated measurement scale eliminates the need for additional measuring instruments. The ProfiStar Mega is a combination implement: it can be used for furrowing, ridging and weed control in young plantations with just a single machine. Powder coating and galvanised working parts ensure a long service life. It works three times the area in the same amount of time as the ProfiStar Maxi.

- + DITCHING AND EMBANKMENT
- + WORKING DIMENSIONS 3100 X 6670 X 1500 MM
- + HYDRAULIC EMBANKMENT TRACK WIDTH ADJUSTMENT
- + MAXIMUM EMBANKMENT SPACING, 1700 MM – 2000 MM
- + OPTIMAL ROW ALIGNMENT
- + CLEAN CUTTING – NO SOIL DISRUPTION
- + STEPLESS ADJUSTMENT

ARTICLE-NUMBER 1455

Weight*: ca. 1950 kg
Dimensions*: 2800 x 3100 x 3970 mm (B x T x H)

SUITABLE FOR THE FOLLOWING CROPS

- Vegetables
- Asparagus

ART.-NR.	ADDITIONAL ARTICLES
1450.01	Curving roller (Pipe version)
1450.02	Curving roller (Flat bar version)
1454.04	Hollow disc unit for outer row (Double discs)
1454.05	Trailing hoe with 5 spring tines
1455.01	Ridge former
