1466 PROFISTAR MULCH LIFTER

METASA
CURVE. PRECISION. MASTERY.

The Metasa Profistar 2R film cutter, with two mounting sides, impresses with its robust design and is ideally suited for professional use on individual ridges. It is designed for ridge widths of approximately 25 to 50 cm at the lower end and features a 300 mm diameter blade, which is guided precisely via a parallelogram mechanism. The machine can be mounted either at the front or at the rear and is fitted with a Category II mounting. Additional lifting hooks enable weights to be securely attached, whilst the overall width of the machine is 2.40 m. The film lifter complies with the German Road Traffic Licensing Regulations (StVZO) and features a partially galvanised and powder-coated finish, ensuring optimum corrosion protection and a long service life.
