

Article number: 1002

-  Weight*: approx. 3.5 kg
-  Dimensions*: 950 x 420 x 350 mm (b x h x w)
-  Wheel diameter*: 125 mm

Delphin I is the initial model from our Delphin series. Its light-weight but sturdy round iron construction makes it the ideal picking cart for strawberry harvesting. Delphin I is equipped with easily accessible handles. It can be used to stack 2 boxes without slipping. Thanks to its slide-bearing wheels, it provides excellent weight balance. The Delphin I picking cart, for harvesting strawberries and other crops, is equipped with a bucket holder at the front.

The durable weather-protected surface contributes to the longevity of the material. Galvanised version.

Highlights

- ✓ User-friendly
- ✓ Better sorting and waste disposal
- ✓ Fitting box sizes:
e.g.: 1 x 600 x 400 mm, 2 x 400 x 300 mm
- ✓ Puncture-proof wheels made of polyamide hard castor
- ✓ Provides staff economy and efficiency
- ✓ Optimal for strawberry harvesting
- ✓ Galvanised

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Suitable for the following crops::

Strawberries
