93.6040.200 METAFRUITCRATE

METASA
CURVE. PRECISION. MASTERY.

All plastic crates for fruit and vegetables are made from food-grade HDPE and are specifically designed to meet the requirements of fresh produce logistics. The perforated containers are designed to ensure optimum air circulation, which in turn helps to keep the produce fresh for longer. The fruit and vegetable crates are available in various heights, depending on the type of fruit or vegetable, and come in flat, medium-height or tall versions. Both the sides and the base are perforated to ensure efficient ventilation.
