Delphin Star Marathon is a mobile picking seat for strawberry harvesting. It features a gauge of 1,000 mm and a seat height of approx. 450 mm. Thanks to its easily rotatable seat, work tasks become easier and can be performed for longer periods. The front tier holds two boxes side by side which can be stacked 2 high without slipping. They are also suitable for lateral attachment. Its waste bin can be inserted individually as needed. The seat also features an articulated parasol. It is the ideal tool for harvesting soil crops. The durable weather-protected surface contributes to the longevity of the material.

Galvanised version.
