

## Article number: 1608 (8-row)

Weight\*: approx. 680 kg

Dimensions\*: 3000 x 1300 x 1420 mm (b x h x w)

### Highlights

- ✓ Attachment for Cat 2/3
- ✓ Spring tines
- ✓ Intelligent camera control
- ✓ Integrated shifting frame
- ✓ Crop protection plates
- ✓ Can be hitched to combinations
- ✓ Harrow unit
- ✓ Units guided by parallelogram
- ✓ Tools are infinitely adjustable

### Suitable for the following crops::

Corn    Pumpkin    Beans    Sunflowers

**ProfiStar maize hoe in 3 different versions (4, 6 and 8-row): the maize hoe is possible for mechanical weed control between the rows, even very close to the crop.**

The hoe is manufactured in 4, 6 and 8-row versions. The 6-row and 8-row versions are hydraulically foldable (StVZO-compliant (German Road Traffic Licensing Regulations)). The working widths are infinitely variable. The finger hoe elements ensure weed control right up to the planting row, even at higher plant stages, due to a higher clearance height. The crop protection guards are used to protect against unwanted accumulation towards the planting row. All tools are parallelogram-guided and infinitely height-adjustable. This ensures optimum ground hugging and operation even with multi-row systems.

\*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Made in Germany
