Muli I Solo from the trusted Muli I cart series can be used to transport harvests of various crops. Due to its stable angular construction, it is recommended particularly for asparagus harvest transport. Muli I Solo features an easily accessible bolted handle. Due to its centrally located wheels, it has a special weight balance that reduces the load on the handle to a minimum and makes it easier to handle. It can be used to stack various boxes without slipping. The profiled wheels are excellently suited to the edges of asparagus fields. Thanks to its large, puncture-proof slide-bearing wheels, it provides excellent weight balance.
