The mobile care seat features four puncture-free wheels. Due to its stable square-tube construction, it is the perfect mobile care seat for bush crops. The mobile care seat is equipped with a comfortable, rotating seat pan which features stepless height adjustment (300–350 mm). Thanks to its large roller-bearing wheels, it is extremely steady and stable. Its features make it the ideal companion for sedentary care work or for picking strawberries. This mobile care seat is a narrow-gauge model. The durable weather-protected surface contributes to the longevity of the material. Galvanised version.
