

Article number: 1450 (3-row version)

- Weight*: approx. 400 kg
- Dimensions*: 2500 x 1500 x 1700 mm (b x h x w)

Article number: 1451 (2-row version)

- Weight*: approx. 290 kg
- Dimensions*: 1550 x 1500 x 1700 mm (b x h x w)

Highlights	
✓	Powder-coated and galvanised version
✓	Multi-row capable
✓	Optimum row adjustment without measuring equipment
✓	Clean cutting – no soil breakage
✓	Disc coulters and breaker are roller-mounted

Art. no.: additional articles	
1450.01	tube breakage roller
1450.02	breakage roller as flat iron variant
1451.02	disc coulters, complete 350
1451.03	disc coulters, complete 80/ 80
1451.04	stone breakage guard
1451.05	disc coulters, complete 460

Efficient and clean:

The Profi Star series is another innovative development from Metasa that makes your cultivation and care of crops much easier. An extremely solid base frame makes it possible to carry out deep loosening absolutely cleanly up to a penetration depth of 500 mm. The disc coulters as well as the deep mandrel and breakage roller form an intelligently matched complete unit. All work steps are separately height-adjustable for ideal results. The gauges can also be easily adjusted to the required row spacing. The solid workmanship as well as powder coating and galvanisation of the active parts make the Profi Star series an absolutely irreplaceable device.

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Made in Germany

Suitable for the following crops:

Strawberries	Vegetables	Asparagus
