

## Article number: 1453

- Weight\*: approx. 460 kg
- Dimensions\*: 3270 x 1400 x 1460 mm (b x h x w)

Highlights
✓ For medium to heavy soils
✓ Powder-coated
✓ Robust construction
✓ Gauge is freely adjustable
✓ Partially galvanised
✓ Wear-resistant coulter bodies

The ridge plough from Metasa, from the proven Profi Star series, makes the cultivation and care of your crops much easier. Its robust design makes it ideal for winter ridges and medium to heavy soils, making it the perfect plough for your field preparation. In addition, the support wheels can be manually adjusted in height according to your needs. The gauge is infinitely variable from 1800 to 2200 mm, so the row can be processed in one pass. Other attachments are possible, such as spring tines, harrows and disc harrows, which can be mounted on the rear.

\*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

Art. no.:	additional articles
	spring tines
	harrows
	disc harrow

**■ ■ ■ Made in Germany**

Suitable for the following crops:

Vegetables	Fruit	Asparagus
