- ✓ Row loosening optionally available
- ✓ Different roller types (round roller, standard)
- ✓ Roller for recompaction and height adjustment

Art. no.: additional articles

- Small quantity spreader
- Tube roller
- Impact roller
- Row loosening

ProfiStar short disc harrow for asparagus- and wine growing:

The short disc harrow from the ProfiStar range is suitable for the cultivation of asparagus, viticulture and fruit. The short design means that the disc harrow can be used universally. For asparagus, it can be used for maintenance and weed control from young to old plants. Sprung disc version with rubber bearings and spring elements. The arrangement is a guarantee for smooth running. The standard discs with a Ø of 510 mm + 560 mm ensure smooth running of the machine. Height regulation and recompaction is ensured by the Ø 500mm rollers. The machine is powder-coated and partially galvanised.

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

 **Made in Germany**

Suitable for the following crops::

Strawberries Vegetables Asparagus Viticulture
