

1401 | film applicator - unwinder

1401.01 | without side lift / brake

Article number: 1401

 Weight*: approx. 455 kg

 Dimensions*: 2500 x 1450 x 1550 mm (b x h x w)

Article number: 1401.01

 Weight*: approx. 400 kg

 Dimensions*: 2500 x 1450 x 1550 mm (b x h x w)

Highlights

- ✓ Unwinding with hydraulic brake
- ✓ Powder-coated and galvanised version
- ✓ Hydraulic tubular drive with operation from the tractor

1045.04	sectional winder plate 1000 mm
1402.02	winding unit

The film winder Wickel Star I is the first model from Metasa. Compared to ordinary film winders and film layers, the Wickel Star I offers some special features. The winder not only remedies known functional faults or awkward operations, but, in view of the practical operation, completely surpasses them. It is first and foremost an unwinder. The two extensions are infinitely adjustable. Winding tubes up to a length of 2150 mm can be worked. With the common winding tubes (1600 mm and 1750 mm) the side lift is up to 375 mm. The hydraulic unwinding brake of the Wickel Star I is also new and user-friendly. This can be switched on as required via the control system. Due to the arrangement of the bearings, the tubes run easily and without chattering. It works smoothly and noticeably and efficiently improves film laying.

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.

 **Made in Germany**

Suitable for the following crops:

Strawberries

Vegetables

Asparagus
