1002 DELPHIN I
FRONT BUCKET HOLDER

METASA
CURVE. PRECISION. MASTERY.

The Delphin I is the first model in our Delphin series. Its lightweight yet sturdy round-bar construction makes it the ideal picking trolley for the strawberry harvest. It features easily accessible handles and allows two boxes to be stacked safely on top of one another. Excellent weight balance is ensured by the wheels with slewing bearings. The Delphin I picking trolley is not only suitable for strawberry harvesting, but also for other crops. It also features a bucket holder at the front. The weather-resistant galvanised finish contributes to the durability of the material.

- + USER-FRIENDLY
- + IMPROVED SORTING AND WASTE DISPOSAL
