

The linked Muli unicycle transport trolley 3-piece is guided centrally on one wheel, making it the ideal picking trolley for strawberry and asparagus harvesting. The robustly constructed transport trolley is equipped with easily accessible handles and allows 3 boxes to be stacked securely on top of each other with triple slip protection. The large wheel with roller bearings ensures a balanced center of gravity. The weather-resistant surface ensures high durability of the material. The design is powder-coated for additional protection. Transport costs are optimized as the back angle and push handles are screwed on.
