1020.09 MULI I TRIO VEGETABLE TROLLEY

METASA
CURVE. PRECISION. MASTERY.

The Muli I Trio, part of the tried-and-tested Muli range, can be used to transport various crops after harvest. Thanks to its sturdy angular design, it is particularly recommended for transporting asparagus during the harvest. Boxes of various sizes can be stacked on it without slipping. The Muli I Trio features an easily accessible, bolted handle. The treaded wheels also perform well at the edges of an asparagus field. The large, puncture-proof wheels with plain bearing guidance ensure good weight distribution.
