1020 MULI I FRONT SOLO ASPARAGUS CART

METASA
CURVE. PRECISION. MASTERY.

The Muli I Front Solo from the tried-and-tested Muli range is suitable for transporting various crops after harvest, but is particularly recommended for the asparagus harvest. Thanks to its sturdy angular design, boxes of different sizes can be stacked securely without slipping. The bolted handle is easily accessible, and the treaded wheels perform well even at the edges of fields. Large, puncture-proof wheels with roller bearings ensure good weight distribution. The surface is galvanised in accordance with DIN EN ISO 1461.
