

The coreless winder is ideal for the final winding of bag films, perforated films, fleeces, nets, drip hoses and similar materials. It offers three mounting points: rear, front hydraulics and/or front loader consoles. The robust design and durable components guarantee safe, long-lasting use. Thanks to the two-part reels, winding is possible in both directions of rotation without a core, and the wound material can be disposed of in a single operation. The winding arm can be quickly adjusted with a locking pin. Power is supplied via a standard 3-pin 12-volt Euro plug from the tractor. Two double-acting hydraulic connections allow for easy operation directly from the tractor. Overall, the coreless winder is a practical and efficient addition for film closure.

ARTICLE-NUMBER 1404

weight*: ca. 550 kg

dimension*: 2900 x 2000 x 1700 mm (B x T x H)

SUITABLE FOR THE FOLLOWING CROPS

strawberries

vegetables

asparagus

arable farming

- + WINDING WITHOUT TUBES
- + POWDER-COATED AND GALVANISED FINISH
- + EASILY ADJUSTABLE SPOOL ARM
- + LABOUR-SAVING AND EFFICIENT
- + ROBUST CONSTRUCTION
- + CONTROL BOX CAN BE OPERATED FROM THE DRIVER'S CAB (RIGHT/LEFT)
- + TWO DIRECTIONS OF ROTATION FOR THE REEL
